- **Operating System:** Windows 10 (or newer) / Ubuntu 22.04 LTS (or newer)
- **Memory:** 4 GiB RAM or more
- **Graphics card:** GTX 1050 Ti or newer

Download

Standalone

Download

Download the "-win64.zip" version if you're on a Windows OS, and "-lin64.tar.gz" for Linux.
No installation is required, simply extract the archive somewhere and run the "pfm.exe".

Source Code

Pragma and PFM are both completely open-source on GitHub, which means you can also build them yourself. For more information, check out this article.
